Vehicle Graphics

Reach thousands of people with one simple advert. Have your company details, products, services or message emblazoned on you vehicle. Get your company noticed in the street or more likely in a traffic jam!

- Turn your company vehicles into cost-effective, long-lasting advertising tools
- Combine our Graphic Design Service and full colour digital printing to generate sales leads for your business
- Our premium vinyls and solvent based inks are U.V. and water resistant for up to 5 years
- We can also print one-way 'Contra-vision'. This allows printed images to be applied to window areas without restricting visibility for the driver
- Magnetic vehicle signs and basic vinyl lettering are also available
- For help and information on any aspect of your vehicle graphics please call 0800 389 9898

BannerFlex Banner Systems

Our revolutionary BannerFlex Systems set new standards in the post mounted banner market.

- Unique and patented design holds the banner under constant tension - when the wind blows the force is immediately transferred to the fibreglass arms, which then flex to dissipate the energy
- Unrivalled 10 year product warranty
- Local Authority endorsed
- This 'wind-spill' factor is crucial in protecting the banner from excessive wear and greatly reduces the forces exerted onto the lamp column
- Wind tunnel tested up to 125mph
- Universal brackets allow installation onto round, square, octagonal and fluted lamp standards

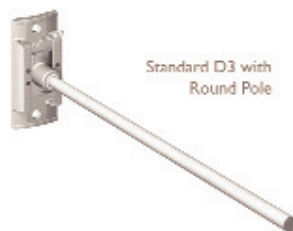

JUNIOR

For use on the smallest diameter and lightest lamp columns. A one-piece flexible fibreglass arm and bracket for a maximum banner size of 600 x 1500mm

STANDARD D3

Designed for use on larger diameter lamp columns and/or where a larger banner is preferred.

METRO

Specifically designed for use on all small to mid-sized diameter lamp columns. All of the features of the Standard D3 but in a more compact form.

Code	Description	Column Dia.	Max Banner Size (w x h)	Wind Spill	Price per Pair
200-523	Junior Round Arm	66mm +	600mm x 1500mm	32%	£69.00

Lamppost Banners

A highly visible and cost-effective solution to promote community-based campaigns, cultural and sporting events and sponsorship opportunities.

- Printed and finished in-house using heavy-duty banner grade PVC with a 'block-out' centre for superior double-sided printing
- Our printed PVC banners are flame retardant and have a UV life of up to 7 years
- A range of popular sizes are priced below to accommodate the revolutionary BannerFlex 'Wind-spill' Lamppost Banner System
- For larger projects we can provide a complete service including survey, design, production and nationwide installation using our own experienced fitting teams
- For help and advice on any aspect of your project please call our sales team on 0800 389 9898

Tamtorque fixings

Installation

We strongly recommend our Tamtorque geared banding clips are used for banner installation. 1 kit comprises 4 bands and will install one or two banners. Please advise column diameter when ordering.

Code	Description	Price Each
200-528	Tamtorque Fixing Kit	£18.00
200-529	Ratchet Tool & Bit	£25.00
